OPTIONS

- Case Type
 - Open Frame
 - U-Chassis
 - Enclosed
- I/O Connectors

FEATURES

- Single Outputs
- RoHS Compliant
- Low Ripple & Noise
- Universal Input of 90~264VAC (120~375VDC)
- High Efficiency Up to 93%
- Ultra-Compact Size
- Over Power, Over Voltage, and Short Circuit Protection
- PFC Function
- Open Frame, U-Chassis, or Enclosed Case Available
- DIN Rail Kit Available for Enclosed Case
- Optional I/O Connectors Available (Type A or Type B)
- 120 Watts with Convection Cooling (100 Watts for Open Frame, 5V Output Models)
- 150 Watts with 30CFM Fan for 5V Output Models
- 180 Watts with 18CFM Fan for 12-48V Output Models
- CE Approval for All Models, UL60950-1 and CB Approvals for All Models Except 5V & 15V Outputs

DESCRIPTION

The PSAQF120 series of AC/DC switching power supplies offers up to 180W of output power with 18CFM fan for 12-48V output models, 150W of output power with 30CFM fan for 5V models, and up to 120W with free air convection. All models have a single output and a universal input. Some features include 4000VAC I/O isolation, PFC function, and efficiency up to 93%. Each supply is also RoHS compliant and has CE safety approval and all models except 5V and 15V models have UL60950-1 and CB approvals. All models are protected against short circuit, over power, and over voltage conditions. Models are available in open frame (Type O), U-Chassis (Type U), enclosed case (Type C), and DIN rail (-DN suffix for Enclosed Type) designs with two types of I/O connectors available. Please contact factory for order details.

NOTES

1. 30CFM Fan for 5V models, 18CFM fan for other models.
2. Ripple & Noise are measured at 20MHz of bandwidth with 0.1uF & 47uF parallel capacitor.
3. To indicate DIN rail kit for Enclosed case, add DN to end of product model number. Ex: PSAQF120U-5SDN
4. Hold up time is measured at 90% Vout
5. It is strongly recommended to conduct test with DC voltage. If customer wishes to test with AC voltage, disconnect all Y-capacitors within supply.
6. This product is Listed to applicable standards and requirements by UL.

COMPANY INFORMATION

Wall Industries, Inc. has created custom and modified units for over 50 years. Our in-house research and development engineers will provide a solution that exceeds your performance requirements on-time and on budget. Our ISO9001: 2015 certification is just one example of our commitment to producing a high quality, well-documented product for our customers.

Our past projects demonstrate our commitment to you, our customer. Wall Industries, Inc. has a reputation for working closely with its customers to ensure each solution meets or exceeds form, fit and function requirements. We will continue to provide ongoing support for your project above and beyond the design and production phases. Give us a call today to discuss your future projects.
