## DESCRIPTION

The PSANCN series of AC/DC power supplies provides 15 watts of output power in a 2.91" x 2.13" x 0.87" encapsulated PCB mountable package. This series consists of single output models with a universal input range of 90-264VAC (120-370VDC). Some features include low ripple and noise, -40°C to +70°C operating temperature range, and 4000VAC I/O isolation. This series is also protected against over power, over voltage, and short circuit conditions. The PSANCN series has two types of screw terminal mechanical options available. All models are RoHS compliant and have UL/cUL, CE, and CB safety approvals.
