- Wide Input Voltage Ranges
- 24PIN DIL Package
- Industry Standard Pinout
- Regulated Output Types
- Internal SMD Construction
- Short Circuit Protection
- Low Ripple & Noise
- RoHS Compliant

DESCRIPTION The LANCY3 series of DC/DC converters offers 3 watts of output power in a compact 1.24" x 0.79" x 0.43" 24 pin DIL package. This series consists of regulated single and dual output models with wide input voltage ranges. Each model features internal SMD construction, industry standard pinout, low ripple and noise, and high efficiency. This series has short circuit protection and is RoHS compliant.

COMPANY INFORMATION -

Wall Industries, Inc. has created custom and modified units for over 50 years. Our in-house research and development engineers will provide a solution that exceeds your performance requirements on-time and on budget. Our ISO9001: 2015 certification is just one example of our commitment to producing a high quality, well-documented product for our customers.

Our past projects demonstrate our commitment to you, our customer. Wall Industries, Inc. has a reputation for working closely with its customers to ensure each solution meets or exceeds form, fit and function requirements. We will continue to provide ongoing support for your project above and beyond the design and production phases. Give us a call today to discuss your future projects.
