

## Wall Industries, Inc.

### DECLARATION: PFAS

Per- and polyfluoroalkyl substances (PFAS), sometimes called "forever chemicals," is a group of thousands of substances widely used in many industries. Due to growing awareness of health and environmental concerns, PFAS are facing increasing scrutiny worldwide. In-force and proposed measures set restrictions or requirements on PFAS use in some jurisdictions, and due diligence may be necessary to meet legal obligations, ESG commitments, and/or business requirements.

To the best of our knowledge and based on information provided by our suppliers, none of the products manufactured, supplied, or distributed by our company contain any polyfluoroalkyl substances (PFAS), including but not limited to:

Perfluorooctanoic acid (PFOA)

Perfluorooctanesulfonic acid (PFOS)

Perfluorohexane sulfonic acid (PFHxS)

Perfluorononanoic acid (PFNA)

This declaration covers all components, raw materials, packaging, and finished goods supplied by Wall Industries.

We understand the growing environmental and health concerns related to PFAS and are committed to supporting safe, sustainable, and compliant products.

This declaration is provided in good faith and is based on current information to the absence of PFAS in our supply chain and production processes.
